RENCONTRES MUSICALES INTERNATIONALES

Fondation Simon I. Patiño - Académie Menuhin

The International Musical Encounters were created in 1984 by the Simon I. Patiño Foundation and organized in collaboration with the Menuhin Academy with the aim of bringing together young musicians of the highest level through courses, concerts and workshops specially focused on chamber music.

During these meetings, future students of the Menuhin Academy are selected and recruited for a period of 3 years, during which courses, accommodation and meals are offered to the students.

Lord Menuhin's wish was to offer young string virtuosos from all over the world the opportunity to perfect their abilities by taking lessons with the best professors and by performing in many public concerts given by the **Menuhin Academy** chamber orchestra.
